AskAgent Protocol

Your agent talks to
the website’s agent

How agents use websites today

llms.txt

Read the guidance.

Browser UI

Navigate the interface.

The visiting agent still has to work out the website’s workflow.

The website’s own agent

Your agent brings intent

The website’s agent brings expertise

Designed around the site’s data and workflows.

One link starts the conversation

/askagent

No MCP or connector setup

An answer with a next step

The website carries the conversation into its own workflow.

AskAgent Protocol

Website expertise,
one conversation away.
